BOSTON CAMPAIGN
LIKE HONOLULU

The friends of the project to provide the additional sum of \$500,000 necessary to the erection and furnishing of the new Young Men's Christian Association building at Newbury and Arlington streets, this city, have very properly named it "a civic movement to meet a great civic need." The present quarters of the association on Bolyston street have become inadequate, and are known to be so by everybody who is in the least degree familiar with the work which is being carried on within its walls. Better and larger accommodations and facilities are demanded in the interest of an institution that is doing much toward the making of useful citizens.

The Boston Young Men's Christian Association not only strives to meet the needs of the city proper but to be, as it is, a civic center, an industrial center, an educational center, a recreation center—a boys' and men's club—for 128 Massachusetts towns. It performs a much-needed function, for of late years its breadth of policy, its undenominationalism, its cheerful hospitality, have invited boys, young men, middle-aged men and even old men to seek within its walls an education that is too often denied them elsewhere. As a consequence, its popularity has greatly increased, and hand in hand with the growth of its popularity has been the growth of its influence for good.

The \$500,000 needed to insure the carrying out of the plans of the association should be subscribed in Boston, by Bostonians, even before the date set for the completion of the fund, Nov. 1. The responses so far have been generous. They should increase in number and generosity. Regarded even from the standpoint of commercialism, there is scarcely any enterprise in which Bostonians can invest their money that will assure greater returns to the city.—Christian Science Monitor.

NO WETGOODS IN
DRYGOODS SHOP

A rumor started this morning to the effect that a certain Oriental dry goods store was peddling liquor to customers by means of having several casks of booze on the roof of a shack adjoining, connected by rubber tubes with a faucet behind a corset advertisement in the back of the store.

Immediate investigation proved that the barrels on the roof had once contained vinegar and had contained nothing for months, perhaps for years last past; that there was no rubber hose connection, and that there was no sign of any long-distance wet-goods connection with the drygoods business involved. Doubtless the rumorologist got his stores mixed.

ENGINEERS GIVE
JOYFUL SMOKER

The United States Engineers last evening gave a most enjoyable smoker, the first function of the kind here and hoped to be but the beginning of a series of such enjoyable entertainments among the men of the service.

Mike Patton and Jack Densham were among the noted entertainers outside of the talent produced by the Engineers.

There was a little more than the

NEW EXPERIMENT
STATION AS ADJUNCT
TO COLLEGE OF HAWAII

Governor Frear announced today that the board to determine the expenditure of the special conservation fund has voted to appropriate \$2500 for the construction of a building for the establishment of a dairy, poultry and swine experiment station for the College of Hawaii on its permanent site at Manoa.

"These are subjects of agricultural development in which no official investigations have yet been made here," the Governor said.

"The cost will be very little and when the buildings are erected the expense of maintenance will come

from the Federal appropriation and the earnings of the station itself.

"The college has been wanting to do this for some time, but has been unable to undertake it for want of funds.

"We must wait for the next period of tax collections, as the allotment of the special income tax for agriculture and forestry, for the present year, had to be applied to the expenditures of the first ten months.

"In the meantime the Superintendent of Public Works will prepare the plans and specifications for the buildings."

ADMIRALTY
DECISION

Judge S. B. Dole today rendered a decision in the admiralty suits of Jitsumosuke Kohata, Ryotaro Torii and Morizo Yamamoto, respectively, against the steamship Stanley Dollar. He awards the libellants \$62.45 each with one docket fee of \$20 to counsel. Thompson & Clemens are proctors for libellants and E. C. Peters is proctor for libellee.

The amount of the award is determined by a decree made in the case of K. Imada and thirty-five other Japanese against the Stanley Dollar, as a stipulation was on record by which it was agreed that the decision in that case should be held to be the decision of the court in these three cases.

That former decree was in favor of the libellants in the amount of \$41,061.88, or \$112.83 to each of them. On appeal to the Ninth Circuit Court of Appeals in San Francisco the decree was affirmed, but the award was cut down to \$62.45 for each libellant by disallowance of the claim for damages for loss of work and expenses while awaiting trial. Under the stipulation this \$62.45 was what each of the present libellants was entitled to, but their counsel claimed a docket fee of \$20 in each case. As already seen, Judge Dole allows only one docket fee instead of three.

In the syllabus the law points established are these, condensed:

1. According to the stipulation, a final hearing in these cases had taken place.

2. Counsel, having represented three cases which might have been joined in one libel, are entitled to but one docket fee.

3. The statute providing for interest on judgments does not apply to decrees. "When no interest is allowed in a decree in admiralty, nor in the appellate court on appeal, the inferior court to which the mandate of the appellate court is directed may not add an allowance of interest."

A government scientist declares no woman should be allowed to marry before she has learned how to cook. How would it do to bar men from marriage until they are able to provide for a cook?—New York Herald.

5000 VINES AND
2000 FRUIT TREES
GOING TO MAUI

SAN JOSE, October 15.—W. F. Cole, general manager of the Kaupakalua Wine and Liquor Company, Limited, of Makawao, Maui, H. I., a former resident of this city, has given Morgan Miles an order for 5000 rooted vines that will be planted on the island, and 2000 fruit trees of assorted varieties. Mr. Cole says the Isabella grapevine does well in the islands, and is used extensively in making wine.

YOUNG ROBBERS

(Continued from Page One.)

the 26th and convicted. Sentence of one month in jail was passed, which he served out.

On May 3, 1909, Mikalemi was arrested at Aiea for assault and battery on a Korean, and being tried on the same day was convicted and fined \$10 and costs. He worked the fine out in jail.

On August 1, 1909, he was arrested for assault on the highway upon a Chinaman. Next day he pleaded guilty to the charge and was fined \$12 and costs of \$3. Not having the money he served time for it in jail. Mikalemi on the occasion last mentioned got out of jail about a month prior to his commission of the crime for which he and Kaupiko were convicted and sentenced this morning. This offense consisted in the way-laying, robbing and assaulting two Chinese on the highway at Aiea in the dead of night. One of their victims was found at two o'clock in the morning lying unconscious in the roadway by a policeman from Pearl City who had responded to a call from Aiea when the alarm had been raised.

There is little known about the previous life of Kaupiko, except that he was of the carousal hoodlum class. He is about twenty-four years of age, while Mikalemi is only about nineteen.

San Francisco—Sailed Nov. 10, Italian cruiser Calabria for Honolulu.

Grays Harbor—Arrived Nov. 10, Sch. Espada hence Oct. 22.

Grays Harbor—Arrived Nov. 10, sch. Borealis from Hilo, Oct. 21.

Seattle—Sailed Nov. 10, S. S. Hyades for Honolulu.

S. S. Chiyo Maru will arrive from Yokohama en route to San Francisco, on Sunday at 4 p. m.

LOGBOOK

Japanese cruiser Idzumo arrives on Sunday from California.

Transport Sheridan is due tomorrow afternoon from San Francisco.

The Inter-Island Steam Navigation Company's S. S. Helene, which has been to San Francisco for an overhauling, is expected to arrive here on Sunday morning.

Canadian-Australian S. S. Marana is due from Victoria and Vancouver on Saturday.

The German cruiser Arcona is due to arrive from San Francisco on Tuesday next, and the Italian cruiser Calabria is looked for on Wednesday from San Francisco.

P. M. S. S. Siberia will reach this port on Monday next from San Francisco.

Toyo Kisen Kaisha S. S. Chiyo Maru is due Sunday morning from the Orient.

British cruiser Bedford arrived early this morning from San Francisco by way of Hilo where she arrived yesterday morning. She docked at the Naval wharf, across from the Dutch cruiser Noordbrabant, and at 8 o'clock gave the national salute of twenty-one guns, the naval station saluting battery answering gun for gun.

AT HALEIWA.

Manager Kimball, who is something of a tennis enthusiast, has put the court at Haleiwa in splendid condition and many enjoyable sets are played there. For a long time under the former management tennis was sacrificed to golf but under the new both sports are indulged in. There is no better place for the golfer than Haleiwa because the links are so well situated. It is always cool and the playing is pleasanter in consequence. The table at Haleiwa is equal to any in the country and the service better than most hotels. The wide verandahs, too, are inviting and those who go to this famous resort for a rest find it. The ride by auto is always pleasant.

Ten per cent. penalty is to be added to all taxes not paid before the 15th instant.

EYES CAN KILL

A prominent lawyer in this city admitted he had no idea that all his nervousness, loss of memory, sleeplessness and other consequent disorders of mind and body were due to eye strain.

Sleep is impossible if the nerves are not at rest. The nerves rule the body. Eye troubles are often the result of shattered nerves and stomach disorders. If you cannot sleep, it's probably due to your eyes!
